

CHOOSING THE RIGHT SOLAR SYSTEM

Delta Electrics have chosen only quality products from reputable suppliers to put together a range of solar options for our clients. Solar power is a long term investment with performance and parts warranties up to 25 years and a likely system life of up to 40 years. With this in mind you need to be sure you know your system is working properly and if there are issues then the solution is available. This is why we recommend the SolarEdge Optimiser System.

4.5kW System	Traditional	Optimiser	Optimiser AU
String Inverter	Yes		
SolarEdge Optimiser		Yes	Yes
Tier 1 GCL panels	Yes	Yes	
Australian Tindo panels			Yes
Inverter Warranty	7 years	25 years	25 years
Panel Performance 80%	25 year	25 years	25 years
*Price after STCs (2016)	\$9500	\$12635	\$13800

6 kW System	Traditional	MicroInverter	MicroInverter
String Inverter			
Enphase Micro Inverter	Yes	Yes	Yes
Tier 1 GCL panels	Yes	Yes	
Australian Tindo panels			Yes
Inverter Warranty	10 years	10 years	10 years
Panel Performance 80%	25 year	25 years	25 years
*Price after STCs (2016)	\$15200	\$16400	\$18300

*GST (inc)

* Prices are subject to site inspection and any changes to price will be notified following the inspection

WHY CHOOSE US

Delta Electrics have been operating in the Northern Territory since 1969.

We specialise in design, installation and service of a wide range of Solar Power Systems and have serviced the Top End with solar power solutions since 1985.

Delta Electrics offers;

- ✓ Competitive Pricing
- ✓ A choice of panels including Australian made Tindo panels
- ✓ A choice of inverter systems including the latest technology SolarEdge Optimiser System.
- ✓ On and Off Grid Systems
- ✓ Battery solutions
- ✓ Long Term local support
- ✓ We are an accredited Quality Endorsed Company

Our Partners

TINDO SOLAR PANELS

Tindo solar panels are manufactured and designed in Australia for Australian conditions. Our premium solar panels are renowned for their superior quality and lifetime performance, all with very minimal maintenance required from the system owner. The Tindo solar panel production line is highly automated and helping to create the next generation of high tech, green, advanced manufacturing jobs in Australia. Clear your conscience and start generating free energy today

SOLAR EDGE INVERTERS AND OPTIMISERS

The SolarEdge portfolio of products includes power optimizers, highly efficient PV inverters and a Web platform for module-level monitoring and fault detection. The SolarEdge system enables harvesting more solar power from any PV system by effectively removing the known system constraints across the photovoltaic energy space.

Golden Concord Holdings Limited, GCL is the number 1 silicon and wafer manufacturer in the world!. It has a 52 Step Quality Control process to ensure long term reliability! Supported by world leading "Swiss Re" module insurance with full cover and re- insurance option! GCL is the world's largest renewable energy manufacturer and the only renewable energy manufacturer with over 25 years of history! It has true vertical integration - silicon, wafer, cell and module manufacturer! It is represented in Australia by a subsidiary One Stop Warehouse.

As well as solar panels it has a diversified business and is a leader in the battery storage industry.

Sungrow Power Supply Co., Ltd. a high-tech enterprise engaged in development of power supply equipment for renewable energy. Founded in 1997 Sungrow has become one of the leading manufacturers in the world PV inverter industry. We have 1000 employees all around the world, of which over 30% are R&D engineers, representative offices and branch companies in France, Italy, Germany, Canada, Australia and other countries.

With over 1500MW installation capacity globally, of which 400MW is installed in Europe, Sungrow is the largest PV inverter manufacturer of Asia,
